SUMMARY

Diligent software engineer with about 6 years of experience in fullstack development and proficiency with cloud technologies. Proven record of collaborating effectively in fast-paced Agile cross-team environments. Passionate about leveraging technology to make a positive impact on people's lives, whether on a large or small scale. Eager to continue learning and develop software solutions that drive meaningful change.

WORK EXPERIENCE

NCR Corporation – Atlanta, Georgia, USA
Software Engineer II   *Jul 2019 – Feb 2024*
- Contributed to the development of at least 5 diverse components within a Microservices architecture
- Spearheaded the design and implementation of 3 teller-consumer collaboration SDK components, enabling abstracted communication between frontend applications and backend systems
- Proactively tracked and addressed application security issues, resulting in a 75% decrease in security vulnerabilities
- Provided guidance and mentorship to 4 junior software engineers, fostering their professional growth and development

JPMorgan Chase – Atlanta, Georgia, USA
Associate Software Engineer   *May 2024 – Present*
- Effectively communicated with stakeholders to design and implement a GraphQL API to improve data-fetching efficiency by 50%
- Contributed to development of microservice ecosystem for processing, transforming, and migrating nearly 1 million documents in as little as 3.5 hours while maintaining data parity

TECHNICAL EXPERIENCE

- Demonstrated exceptional teamwork skills while working seamlessly within 4 international and cross-functional teams, effectively navigating diverse cultural and professional backgrounds
- Excellent written and verbal communication skills
- Experience in both building and consuming REST and GraphQL APIs; proficient in handling SOAP APIs
- Successfully implemented 3rd-party API integrations, ensuring seamless functionality across systems
- Enthusiastic about learning and development, constantly seeking opportunities to expand knowledge
- Familiar with CI/CD practices
- Experienced in Agile/Scrum methodologies

SKILLS & PROFICIENCIES

Programming Languages: Java, JavaScript, TypeScript, Node.js, HTML, CSS, Shell scripting, Python, SQL
Cloud: Google Cloud Platform (GCP), Amazon Web Services (AWS), Kubernetes, Helm, Minikube
Frameworks: Java Spring Boot, Java Spring Batch, Java Spring Webflux, React, Next.js, Express, Apache Kafka, Jest Testing Framework, Cucumber Testing Framework, JMeter
Build Tools: Maven, Docker, Jenkins
Version Control: Git, GitHub, Artifactory, BitBucket
Operating Systems: Windows, Linux
Security: SonarQube, AquaSec, WhiteSource (MEND), Wireshark

CERTIFICATIONS

Google Cybersecurity Certificate   *Mar 2024*
Coursera

EDUCATION

Bachelor of Computer Science   *Aug 2015 - May 2019*
Georgia Institute of Technology – Atlanta, Georgia, USA
Graduated with Highest Honors
